ABSTRACT

EFFECTS OF BINARY STARS ON RECOVERED REMNANT POPULATIONS

by *Peter Smith*

submitted on September 30, 2021:

Contents

Contents	iii
List of Figures	iv
List of Tables	v
1 INTRODUCTION	1
1.1 A SECTION	1
1.1.1 SUB-SECTION	1
2 Another Chapter	2
A Name of your first Appendix	3
Bibliography	4

List of Figures

List of Tables

2.1	Comparison of Indices of Refraction for Various Materials	2
-----	---	---

Chapter 1

INTRODUCTION

your stuff here! Here is how you make a reference to ref1 (?). Here is how you make a reference to ref2 (?). There it is.

Abbate et al. (2018)

1.1 A SECTION

This is how you put in a section within a chapter. Here is how you make reference to a Figure, like Figure ?? below.

1.1.1 SUB-SECTION

You can make subsections, too.

Chapter 2

Another Chapter

Here is how you add in another chapter. Here is how you make a table.

Here is how you can put in an equation (although this one isn't labeled).

$$\tan(\theta_{tg}) = \frac{x_{tg}}{Z_0} \text{ and } \tan(\phi_{tg}) = \frac{y_{tg}}{Z_0}$$

Here is an equation done differently, labeled properly, which could be referenced using equation 2.1:

$$p = (\delta + 1) \cdot p_{cent} \tag{2.1}$$

Table 2.1: Comparison of Indices of Refraction for Various Materials

Medium	Index of Refraction(n)
Vacuum	1
CO_2	1.00045
Aerogel	1.0-1.05
Water	1.33

Appendix A

Name of your first Appendix

If you wanted an appendix, it would go in like this. It would be referenced using Appendix A.

Bibliography
