# ABSTRACT

EFFECTS OF BINARY STARS ON RECOVERED REMNANT POPULATIONS IN  
GLOBULAR CLUSTERS

by *Peter Smith*

submitted on January 5, 2022:

Abstract Here

# Contents

<b>Contents</b> . . . . .	iii
<b>List of Figures</b> . . . . .	iv
<b>List of Tables</b> . . . . .	v
<b>1 INTRODUCTION</b> . . . . .	1
1.1 A SECTION . . . . .	1
1.1.1 SUB-SECTION . . . . .	1
<b>2 Another Chapter</b> . . . . .	2
<b>A Name of your first Appendix</b> . . . . .	3
<b>Bibliography</b> . . . . .	4

# List of Figures

# List of Tables

2.1	Comparison of Indices of Refraction for Various Materials . . . . .	2
-----	---	---

# Chapter 1

## INTRODUCTION

Some of this already written from proposal.

Abbate et al. (2018)

### 1.1 A SECTION

This is how you put in a section within a chapter. Here is how you make reference to a Figure, like Figure ?? below.

#### 1.1.1 SUB-SECTION

You can make subsections, too.

# Chapter 2

## Another Chapter

Here is how you add in another chapter. Here is how you make a table.

Here is how you can put in an equation (although this one isn't labeled).

$$\tan(\theta_{tg}) = \frac{x_{tg}}{Z_0} \text{ and } \tan(\phi_{tg}) = \frac{y_{tg}}{Z_0}$$

Here is an equation done differently, labeled properly, which could be referenced using equation 2.1:

$$p = (\delta + 1) \cdot p_{cent} \tag{2.1}$$

Table 2.1: Comparison of Indices of Refraction for Various Materials

Medium	Index of Refraction(n)
Vacuum	1
$CO_2$	1.00045
Aerogel	1.0-1.05
Water	1.33

# Appendix A

## Name of your first Appendix

If you wanted an appendix, it would go in like this. It would be referenced using Appendix A.

---

# Bibliography
